

## Overview

The Albutt High Tip Bucket for Grain handling is manufactured with a clean internal shell with rams positioned against the side walls. Designed for handling large volumes of Grain, the strategic design gives a longer operating life compared to standard high tip buckets. With brackets included, models are suitable for Telehandlers or Loading Shovels. The high tip action gives approximately an extra 1m reach in height and forward reach.

## Features

- Hardox cradle
- HB500 leading edge
- Clean bucket shell
- Increase tipping height and forward reach by 1.0m approx.
- Bucket cushioning
- Twin high capacity rams
- Ideal for loading high sided trailers
- High grade pins
- Hoses supplied to central tee piece
