

Overview

The Albutt C Series Fork range comes as standard with forged steel KV type tines; ideal for a multitude of applications including mucking out and moving bales. The C Series range is made up of standard forks, forks with grab and forks with grapple. Its design has a host of features which make it unrivalled in the world attachment market. Suitable for machines with a 2-3 tonne lift capacity.

Features

- Solid fork back – keep carriage and hydraulics clean
- Wide opening grab; 1518mm
- 980mm forged steel tines
- Cut outs in fork back for visibility
- High capacity hydraulic rams
- Open and close grab stops to protect hydraulic rams and pins
- Optional side tines
- Full width base wear strip plate protects tine holder
- Tees on rams inward facing for spill protection
- Forks available with a Grab or Grapple to be added

Models

Model	Width	Base Tines	Capacity
C360	6'	8	1.24m3
