

WASTE KING HIGH TIP BUCKETS

Overview

The Albutt **Waste King** High Tip Bucket is manufactured from high tensile steels including a Domex body and a Hardox cradle. Designed for the high intensity applications of the Waste and Recycling industries, the strategic design gives a longer operating life compared to standard high tip buckets. With brackets included, models are suitable for Telehandlers or Loading Shovels.

Features

- High tensile Domex body
- Hardox cradle
- HB500 leading edge
- Clean bucket shell
- Increase tipping height and forward reach by 1.0m approx.
- Bucket cushioning
- Twin/Single high capacity ram depending on capacity
- Ideal for loading high sided trailers
- Single ram models fitted with valve to prevent bucket going over centre
- High grade pins
- Hoses supplied to central tee piece
