

Overview

The Albutt range of Bale Spikes are designed to suit a variety of bale and machine types. Tines are pushed into the heavy wall box section frames, perfectly spaced to suit your required bale types. Typically all models kept in stock for urgent requirements.

Features

- Substantial heavy duty box section design
- F100 for one round bale
- F110 for two round bales
- F100 1 x 980mm tine with 1 support tine
- F110 2 x 980mm tines with 2 support tines
- Tines pushed in main frame
- All models normally kept in stock
- Recommended to be used with Albutt's bolt on bracket system – ask your dealer for details
