

Overview

The new range of power grabs are designed for use with telehandlers and shovels with lift capacities of 2 to 3 tonnes. The designs feature high strength materials, Domex and Hardox. These new high tensile steels offer 60% more strength without an increase in weight. The new see thro back keeps the machine carriage clean. We offer a choice of power grab or grapples, along with flick off options. Tine options include Hardox and Forged steel. Our new grabs offer market leading specification along with the ultimate in strength and reliability.

Features

- Solid fork back – keep carriage and hydraulics clean
- Wide opening grab; 1518mm
- 980mm Hardox Tines
- Cut outs in fork back for visibility
- High capacity hydraulic rams
- Open and close grab stops to protect hydraulic rams and pins
- Optional side tines; Hardox
- Full width base wear strip protects tine holder
- Tines welded into tine holder
- Tees on rams inward facing for spill protection

Fork Models

Model	Width	Base Tines	Capacity
C360HX	6'	8	1.24m3
C366HX	6'6"	9	1.33m3
C370HX	7'	9	1.41m3
C376HX	7'6"	10	1.56m3
C380HX	8'	11	1.70m3

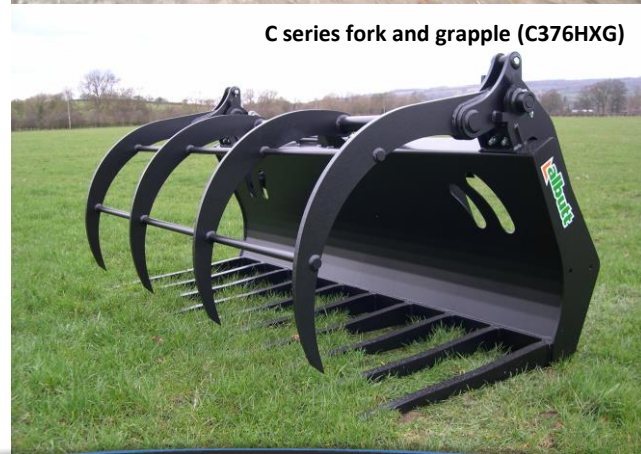

Add 'G' to any part number for Grapple
Replace '3' in part no. with '5' and add 'G' for Hardox Grab

C series fork (C376HX)

C series fork and grab (C580HXG)

C series fork and grapple (C376HXG)
