

Overview

The Albutt F402 round bale stacker securely handles round wrapped silage bales. The attachment allows bales to be stacked in vertical columns with relative ease. Vertical column stacks provide greater stack stability, maintaining bale shape for easy feeding. Stacking on the thickest part of the wrap also minimises wrap damage and retains feed quality.

The heavy duty design of the F402 also means that the grab is as at home being used on Telehandlers as it is on Tractor Loaders.

Features

- Heavy duty design
- Stack round bales in columns
- Arms can float or be locked (either side)
- Large diameter arms; 85mm
- Suitable for Telehandlers and Loaders
- Lifter capacity 1000kgs
- Bale diameters 1200mm to 1600mm
- Bolt on brackets (optional); means the brackets can be quickly and easily changed if you change your machine make
- High capacity hydraulic cylinder offers secure grip
- Normally kept in stock
