

Overview

The Albutt F450 heavy duty side squeeze bale grab handles wrapped silage or straw bales, round or square. Smooth surfaces on the gripper arms protect the bale wrap. Square bales can be gripped from side or end on (dependent on bale length) and round bales can be turned on their ends. An optional frame can allow 2 bales to be carried. As standard the grab is supplied with an adjustable pressure relief valve and hydraulic lock valve to protect against burst pipes.
