

## Overview

The Albutt heavy duty bale grabs are designed for use with telehandlers, loading shovels and tractor loaders. They are supplied complete with attachment brackets to suit your machine. The range comprises of 4 models covering all sizes of bales from 8 conventional to hesston bales. All models feature forged steel claws for high strength and long life. Heavy duty, double acting rams provide sufficient power for claw penetration.

## Features

- Casted claws for easy penetration and secure grip
- High capacity hydraulic cylinders
- Guide bar for mounting on both sides
- Parking leg
- Heavy duty box section frame
- Bracing from front to rear of grab
- Models to suit all bale types
- Bolt on brackets (optional); means if you change your machine make, the brackets can be changed quickly and easily
- Market leading specification
- Simultaneous claw entry
