

## Overview

The Albutt Grass Fork is designed to be used on Loading Shovels and maximise the potential of your clamp machine. As a cheaper alternative to a Folding Fork, width can be added to the Grass Fork by bolting extension wings on; these can be retro fitted/ordered. The Grass Fork utilises high tensile steels such as Hardox to offer a cost effective, ultra heavy duty option for working the silage clamp.

## Features

- 1650mm long genuine Hardox tines
- Domex fork back
- Complete with 4 side tines
- Brackets included to suit your Loading Shovel
- Wing extensions available; optional
- Cut outs in fork back give user visibility
- Designed as a cost effective alternative to the Folding Fork
- High capacities mean large volumes of material can be moved in one load
- Suitable for grass/maize/wholecrop silage
- Heavy duty design
- High back; 1530mm tall
- 8', 9' and 10' models; 1' wing extensions
- 10mm thick tine holder
- Underside wear strip to tine holder

## Models

Model	Capacity	Width	Weight
B908HX	4.57m <sup>3</sup>	8'	1250kgs
B909HX	5.15m <sup>3</sup>	9'	1375kgs
B910HX	5.71m <sup>3</sup>	10'	1490kgs
