

BAG FILLING BUCKETS ARMS FOR SLEEVED BAGS

Overview

To coincide with new bag regulations, Albutt Attachments have developed a new arm system to allow Bag Filling Buckets to work with both sleeved and looped bags. The new system can be retrofitted onto any Albutt Attachments Bag Filling Bucket that features a bolt on bracket design.

Features

- Coincides with new bag regulations
- One man operation
- Can be retrofitted to Albutt Bag Filling Buckets with bolt on bracket frame
- Hooks for looped bags can still be used
- Allows for straighter, tighter stacking
- Continues to allow all the great features that make the Albutt Attachments Bag Filling Bucket the market leading design on the world market
