

Overview

The Albutt F410 soft hands bale stacker securely handles round wrapped silage bales. The attachment allows bales to be stacked in vertical columns with relative ease. Vertical column stacks provide greater stack stability, maintaining bale shape for easy feeding. Stacking on the thickest part of the wrap also minimises wrap damage and retains feed quality.

The heavy duty design of the F410 also means that the grab is at home being used on Telehandlers as it is on Tractor Loaders.

Features

- Heavy duty design
- Stack round bales in columns
- Suitable for Telehandlers and Loaders
- Ideal for tight stacking
- Lifter capacity 1000kgs
- Round tube arms – protects bale wrap
- Wide arm opening
- Spring system to retain arms
- Bale diameters 900mm to 1600mm
- Bolt on brackets (optional); means the brackets can be quickly and easily changed if you change your machine make
- High capacity hydraulic cylinder offers secure grip
- Normally kept in stock

Models

Model	Bale Diameter	Capacity	Weight
F410	900-1600mm	1000kg	180kg
