

FOLDING PUSH OFF BUCKRAKE

Overview

The Albutt Folding Push Off Buckrake is the flagship Buckrake model from Albutt Attachments, offering the very best fork for clamp efficiency.

Closing to 9'9" for road transport, the Folding Push Off Buckrake opens to 14' to suit the largest horsepower tractors and loading shovels – allowing them to keep pace with the silage team. As standard the fork comes with 1650mm Hardox tines, hydraulic accumulator, side tines and three point linkage or loading shovel brackets.

Anti-collision valves prevent the gate and wings colliding. They also mean the gate and wing operation can be operated with one service/

Features

- 1650mm long genuine Hardox tines
- Anti-collision valves - prevents gate/wing colliding
- Only 1 service required
- Hydraulic accumulator
- Opens to 14' closes to 9'9"
- Nylon gate rollers/runners
- Z-type linkage allows for full width gate
- 1735mm tall
- Double side tines
- High flow divider valve to prevent gate twists
- Three point linkage or loading shovel brackets
- High grade weldmesh gate for strength and great visibility

Models
